

July 10-12, 2025

Manchester Grand Hyatt

San Diego, CA

14th Annual ARS Summer Sinus Symposium
EXHIBITOR GUIDE

Kevin C Welch, MD,
FACS, FARS

Welcome from the ARS President

Dear Colleagues,

On behalf of the ARS, and with great appreciation for the Course Directors, I enthusiastically welcome you to the Summer Sinus Symposium, at the Manchester Grand Hyatt, San Diego, CA, July 10-12, 2025.

Behind the support of Michael Setzen (president of the ARS in 2012) – Rick Chandra and I helped develop the first Summer Sinus Symposium in Chicago. It was rudimentary yet innovative. Over the years, the Summer Sinus Symposium has exploded in popularity – primarily due to the many excellent course directors and the unmatched faculty that have reframed, reimagined, and reinvigorated the conference into what it is today: The World's Best Sinus Course! The Summer Sinus Symposium highlights and explores the very core of what we rhinologists do, and that's taking care of patients. By having experts in the ARS give state of the art, yet clinically relevant, talks and by moderating panels that discuss controversies in patient management, attendees have opportunities to stay on the cutting edge of clinical rhinology. Attendees see how research has helped our clinical practice evolve. But most importantly, this is the meeting during which the crème de la crème comes to mix and mingle. It is THE place to learn rhinologic pearls.

Together with our corporate supporters and vendors alike, attendees will have the opportunities to explore the latest technological advancements – whether they be surgical instruments, surgical dressings, image-guidance developments, or state of the art medical therapies. Not only are they present to answer your questions, but they are here to support the ARS as well.

Nothing beats SoCal in the summer, and nothing beats this meeting. Welcome!

Sincerely,

Kevin C Welch, MD, FACS, FARS
President, American Rhinologic Society

Welcome from the SSS Course Directors

Naveen Bhandarkar,
MD, FARS

Rohit Garg, MD,
FARS

Stella Lee, MD

Justin Turner,
MD, FARS

Troy Woodard,
MD, FARS

Dear Colleagues, Attendees, Vendors, and
Corporate Sponsors,

It is our distinct pleasure to extend a warm welcome to you for the American Rhinologic Society's 14th Annual Summer Sinus Symposium, on July 11-12, 2025, at the prestigious Manchester Grand Hyatt in San Diego.

This year's symposium promises to deliver an exceptional educational experience. We have curated a comprehensive program that will feature interactive panels, live cadaver dissections, and insightful clinical and technical discussions. Our sessions are designed to provide attendees with an in-depth understanding of the latest advancements in rhinology and skull base surgery.

We are excited to offer specialized sessions on key topics, including skull base surgery, allergy, and the business of medicine. Additionally, in response to last year's positive feedback, we will continue to explore emerging trends in rhinology, including innovations in technology and the growing role of artificial intelligence.

Beyond the educational sessions, we are pleased to offer a variety of networking and social opportunities. This is an ideal setting for attendees to connect with industry leaders, fellow professionals, and our valued vendors and sponsors. We are also delighted to host a live band at the hotel's pool deck, providing a lively atmosphere for relaxation and collaboration.

San Diego's vibrant location offers ample opportunities for exploration, with a wealth of activities and culinary experiences awaiting you. We look forward to welcoming you to what promises to be an enriching and unforgettable experience. Your participation will contribute greatly to the success of the ARS Summer Sinus Symposium, and we are excited to see you here!

ARS Summer Sinus Symposium Course Directors:

Naveen Bhandarkar, MD, FARS; Rohit Garg, MD, FARS; Stella Lee, MD; Justin Turner, MD, PhD, FARS; Troy Woodard, MD, FARS

ARS 14th Annual Summer Sinus Symposium

Thursday, July 10, 2025

4:00 pm - 7:00 pm
Stryker Dissection Lab – Grand Hall D

5:00 pm – 7:00 pm
Faculty Reception in Bayview

Friday, July 11, 2025

General Session

Grand Hall B

7:45 am – 5:30 pm

Time/Topic	Moderator/Speaker	Panelists
7:00 am – 7:45 Sanofi Regeneron Breakfast Product Theater La Jolla AB, 2nd Level		
7:00 am – 7:45 Breakfast with Exhibitors in Grand Hall A		
7:45 am – 8:00 am Welcome	Naveen Bhandarkar, MD Rohit Garg, MD, FARS Stella Lee, MD Justin Turner, MD, FARS Troy Woodard, MD, FARS	
8:00 am – 8:45 am Practice Evolution: Transformative Insights to Elevate Your Practice <ul style="list-style-type: none">Identify the major advancements in clinical care, technology, and patient management that have influenced practice evolution over the past five yearsDiscuss emerging tools, techniques, and approaches that have become integral to optimizing patient outcomesExplore the latest research, evidence, and practical aspects of how the evolution of surgical tools, instruments, and techniques have enhanced your practiceEngage in interactive discussion on how these advancements in addressing refractory sinus disease and improving quality of life	Brent Senior, MD, FARS	Roy Casiano, MD, FARS David Kennedy, MD, FARS Eugenia Vining, MD Kevin Welch, MD, FARS
8:45am - 09:30 am Pushing the Boundaries of In-Office Rhinology Procedures <ul style="list-style-type: none">Learn different anesthesia techniques available to perform in-office rhinology proceduresUnderstand specific instrumentation needed for simple and complex procedures performed in the officeGain exposure to techniques used to obtain hemostasis during in-office rhinology procedures	Greg Davis, MD, FARS	John Del Gaudio, MD, FARS Kent Lam, MD, FARS Tran Locke, MD, FARS Arthur Wu, MD, FARS
9:30 am -10:15 am When Things Go Wrong: Managing Sinus Surgery Complications <ul style="list-style-type: none">Learn evidence-based strategies to minimize risks during sinus surgery, including proper surgical planning, anatomical assessment, and intraoperative techniquesGain proficiency in managing complications as they arise during surgery, such as hemostasis for bleeding, repair of mucosal injuries, and response to orbital or cranial complicationsParticipate in case-based discussions featuring challenging sinus surgery complications, with a focus on decision-making and problem-solvingLearn how to document complications and manage medicolegal risks effectively	James Palmer, MD, FARS	Ralph Abi Hachem, MD Pete Batra, MD, FARS Angela Donaldson, MD, FARS David Kennedy, MD, FARS

ARS 14th Annual Summer Sinus Symposium

<u>Time/Topic</u>	<u>Moderator/Speaker</u>	<u>Panelists</u>
10:15 - 10:45 Break with Exhibitors in Grand Hall A		
10:45 am -11:30 am Unlocking the Controversies: Critical Questions and Debates on Utilization of Biologics <ul style="list-style-type: none"> Compare biologics to traditional therapies like nasal corticosteroids and surgery in terms of effectiveness and patient outcomes Debate the appropriateness of biologics in the perioperative period Determine the aspects of who is best suited to be prescribing biologics Examine patient selection criteria for biologic therapy and the challenges of personalized medicine in CRS treatment 	Amber Luong, MD, PhD, FARS	Rakesh Chandra, MD, FARS Cecelia Damask, DO Martin Desrosiers, MD Joseph Han, MD, FARS
 11:30 am - 12:15 pm Keynote Lecture: AI in the Future of Medicine	David Danks, MD Professor of Data Science, Philosophy, & Policy Chair, Faculty Council, HDSI University of California, San Diego	
12:15 pm - 1:15 am GSK Lunch Product Theater Hillcrest ABCD, 3rd Level		
12:15 pm - 1:15 pm Lunch with Exhibitors in Grand Hall A		
1:15 pm - 2:00 pm Refractory Sinusitis: The Next Steps in Challenging Cases <ul style="list-style-type: none"> Analyze complex, real-world case studies to determine appropriate diagnostic work-ups and management strategies Explore options in surgical intervention escalation versus medical therapy, including biologics and immunotherapy Use interactive case scenarios to differentiate between different types of refractory sinusitis Discuss the role of patient comorbidities e.g., asthma, allergy, immunodeficiency) in Modifying treatment strategies for refractory sinusitis 	David Conley, MD, FARS	John Craig, MD, FARS Corinna Levine, MD, FARS David Liu, MD Bradford Woodworth, MD, FARS
2:00 pm - 2:45 pm Mastering Rhinologic Procedures: Technical Pearls for In-Office and OR Techniques <ul style="list-style-type: none"> Demonstrate applications of new in-office/OR procedures for nasal obstruction, rhinitis, and chronic rhinosinusitis Explain the technique, patient selection, and step-by-step procedure for performing these procedures Identify, manage, and prevent potential complications related to new technologies for in-office/OR procedures Discuss the benefits, limitations, and evidence supporting these new technological procedures and ways to optimize outcome 	Douglas Reh, MD, FARS Moderator	Leah Hauser, MD Dissector
2:45 pm - 3:15 pm Break with Exhibitors in Grand Hall A		

ARS 14th Annual Summer Sinus Symposium

Time/Topic	Moderator/Speaker	Panelists
3:15 pm - 4:00 pm Cough Chronicles: A Deep Dive into Difficult Postnasal Challenges <ul style="list-style-type: none">Master diagnostic approaches to chronic cough, review typical/atypical etiologies and diagnostic toolsDiscuss the mechanisms of cough reflex hypersensitivity and its triggers in the upper airwayExplore evidence-based management strategies for postnasal drainage-related coughExplore the role of superior laryngeal nerve injections for cough suppression in cases of cough reflex hypersensitivity	Michael Benninger, MD, FARS	Patricia Johnson, MD Ashoke Khanwalker, MD, FARS Liat Shama, MD Eric Succar, MD
4:00 pm - 4:45 pm Navigating the Frontal Frontier: Cutting-Edge Surgical Techniques <ul style="list-style-type: none">Provide technical pearls in performing advanced procedures for refractory frontal sinus diseaseReview demonstrations of mucosal flap creation, stent placement, and challenging frontal sinus dissectionsRecognize common complications, such as restenosis or infection, and learn how to address them effectivelyDiscuss the indications, types, and placement techniques of stents for maintaining frontal sinus patency in challenging cases	Jivianne Lee, MD, FARS	Thomas Higgins, MD, FARS Erin O'Brien, MD, FARS Spencer Payne, MD, FARS Korniat Snidvongs, MD, PhD
4:45 pm - 5:30 pm Beyond the Basics: Advanced Techniques for Nasal Obstruction <ul style="list-style-type: none">Discuss the impact of various structural abnormalities (such as caudal (in database) septal deviations, nasal valve collapse, and other anatomic variations) on nasal obstructionProvide strategies for addressing caudal septal deviationsIdentify appropriate candidates for functional septorhinoplasty for complex nasal obstructionPractice diagnostic and surgical planning for real-world scenarios, including when and how to escalate to advanced techniques like septorhinoplasty	Jay Dutton, MD, FARS	Khalid Ali, MBChB, MD Eugene Chu, MD Michael Yim, MD
5:30 pm - 6:30 pm Industry Thank You Event in Grand Hall A		
6:30 pm - 9:00 pm Signature Event – "80's Night – 4th Floor Pool Deck		
Friday, July 11, 2025 New and Emerging Topics - Breakout Room Grand Hall D 1:15 pm - 5:30 pm		
12:15 pm - 1:15 am GSK Lunch Product Theater - Hillcrest ABCD, 3rd Level		
12:15 pm - 1:15 pm Lunch with Exhibitors in Grand Hall A		
1:15 pm - 2:00 pm Rhinology Shark Tank: Big Ideas, Big Impact <ul style="list-style-type: none">Learn to critically assess research ideas based on feasibility, innovation and potential clinical or scientific impactParticipate in interactive discussions where peers and experts provide feedback on proposed research ideasRecognize how working with cross-disciplinary teams, including engineers, statisticians, and industry experts, can enhance research outcomesEncourage participants to think creatively about solving complex problems in rhinology	Carol Yan, MD	Paramesh Gopi, PhD Peter Hwang, MD, FARS Enrique Iturriaga, MD Victoria Lee, MD, FARS

ARS 14th Annual Summer Sinus Symposium

Time/Topic	Moderator/Speaker	Panelists
2:00 pm - 2:45 pm The AI Revolution in Rhinology: Transforming Practice Today and Tomorrow <ul style="list-style-type: none">• Discuss how AI algorithms analyze clinical data and imaging to support decision-making in rhinologic practice• Evaluate case studies where AI has been effectively integrated into rhinologic care for improved accuracy and efficiency• Understand challenges such as data quality, algorithm bias, and the ethical considerations of AI implementation in clinical settings• Discuss best practices for integrating AI tools into clinical practice, including team training and patient education	Bobby Tajudeen, MD, FARS	Zara Patel, MD, FARS Sanjeet Rangarajan, MD, FARS Kenneth Rodriguez, MD Masayoshi Takashima, MD, FARS
2:45 pm – 3:15 pm Break with Exhibitors in Grand Hall A		
3:15 pm – 4:00 pm From Exam Room to Zoom: Best Practices in Telemedicine Rhinology <ul style="list-style-type: none">• Review case studies highlighting both successful and problematic telemedicine consultations to understand its impact on patient outcomes• Discuss how telemedicine can integrate with traditional in-office visits to optimize patient outcomes• Discuss technological solutions to enhance telemedicine capabilities, such as patient-operated endoscopic devices and AI-supported assessments• Learn how to blend telemedicine and in-person visits effectively to enhance care delivery without compromising diagnostic accuracy	Brian Lobo, MD, FARS	Alexander Farag, MD, FARS Mamie Higgins, MD Christopher Roxbury, MD, FARS Michael Setzen, MD, FARS
4:00 pm - 4:45 pm The Sinus Microbiome: A New Era for CRS and Targeted Therapies <ul style="list-style-type: none">• Learn how next-generation sequencing is used to understand microbial perturbations and infections in patients with chronic sinus infections• Discuss emerging therapies targeting the nasal microbiome, including probiotics, topical antibiotics, and bacteriotherapy• Discuss clinical applications and limitations in tailoring personalized microbiome-based therapies• Explore potential long-term consequences, including antibiotic resistance, unintended microbial imbalances and safety concerns	Yvonne Chan, MD, FARS	Omar Ahmed, MD, FARS Do-Yeon Cho, MD John Craig, MD, FARS Martin Desrosiers, MD
4:45 pm - 5:30 pm The Science of Scent: Practical Insights in Olfactory Dysfunction and the Evidence for Novel Treatments <ul style="list-style-type: none">• Understand the advantages and limitations of different testing modalities and how to choose the appropriate test for specific clinical scenarios• Discuss the key components of a smell clinic, including equipment, staffing, and patient flow optimization• Discuss the potential risks, benefits, and limitations of platelet-rich plasma in treating olfactory dysfunction• Understand how innovations in smell science are shaping the future of patient care and therapeutic interventions	Andrew Lane, MD, FARS	Do-Yeon Cho, MD Li-Xing Man, MD, FARS Sonya Marcus, MD Osarenoma Olomu, MD, FARS
5:30 pm - 6:30 pm Industry Thank You Event in Grand Hall A		
6:30 pm - 9:00 pm Signature Event – "80's" Night – 4th Floor Pool Deck

General Session Rhinology

Grand Hall B

8:00 am – 5:30 pm

Time/Topic

Moderator/Speaker

Panelists

7:00 am - 8:00 am

Amgen/AstraZeneca Breakfast Product Theater

La Jolla AB, 2nd Level

7:00 am - 8:00 am

Breakfast with Exhibitors in Grand Hall A

8:00 am - 8:45 am

Little Noses, Big Challenges: Interactive Pediatric Rhinology Cases

- Review recent advancements in pediatric rhinology, including novel diagnostic technologies and surgical techniques
- Utilize real-world complex cases to apply diagnostic and management strategies for pediatric chronic rhinosinusitis
- Explore the influence of systemic conditions, such as cystic fibrosis, primary ciliary dyskinesia, and immune deficiencies, on pediatric nasal and sinus health
- Review the latest clinical guidelines and advancements in pediatric sinusitis management

Fuad Baroody, MD, FARS

Adam Kimple, MD, FARS
Vijay Patel, MD
Jordan Teitelbaum, DO, FARS

8:45 am - 09:30 am

Advanced Techniques in Revision Sinus Surgery: Mastering Draf III Frontal Sinusotomy

- Identify clinical scenarios where Draf III is indicated, such as refractory frontal sinus disease, extensive scarring, masses or persistent obstruction
- Learn step-by-step techniques for performing different variations of Draf III frontal sinusotomy
- Explore the use of advanced instrumentation, such as angled endoscopes, microdebriders, and drills, to enhance surgical precision
- Understand how to minimize complications, such as cerebrospinal fluid leaks, bleeding, and orbital injury

Pete Batra, MD, FARS
Moderator

Stacey Gray, MD, FARS
Dissector

9:30 am - 10:15 am

Sinus Surgery Showdown: When to Go Big, When to Go Small?

- Review the indications for conservative (small) versus extensive (big) approaches in managing sinus disease
- Compare the short- and long-term outcomes of minimal versus extensive approaches, including symptom relief, complication rates, and revision needs
- Work through real-world clinical scenarios, presenting arguments for both small and big surgical approaches
- Discuss the use of endoscopic tools and advanced visualization techniques in executing both conservative and more extensive procedures

Devyani Lal, MD, FARS

Ian Koszewski, MD, FARS
Victoria Lee, MD, FARS
Michael Marino, FARS
Dennis Tang, MD, FARS

10:15 am - 10:45 am

Break with Exhibitors in Grand Hall A

ARS 14th Annual Summer Sinus Symposium

Time/Topic	Moderator/Speaker	Panelists
10:45 am - 11:30 am Optimizing Epistaxis Management with Advanced Techniques and Tools <ul style="list-style-type: none">Review the latest clinical guidelines, innovations in treatment, and ongoing research in epistaxis managementImplement techniques in hemostasis in advanced sinus and skull base surgery including TIVA, topical agents, IV therapies, positioning, instrumentationReview algorithms for managing refractory or complex cases, including when to escalate to surgical or radiological interventionAnalyze real-world case studies to identify the best practices and appropriate interventions for managing complex epistaxis	Joey Raviv, MD	Nyssa Farrell, MD Keonho Albert Kong, MD Michael Marino, MD, FARS Danielle Warner, MD, FARS
11:30 am - 12:15 pm Advanced Insights into Facial Pain, Headache, and Rhinologic Connections <ul style="list-style-type: none">Apply diagnostic and treatment strategies to real-world cases, focusing on the intersection of headache, facial pain, and rhinologyIdentify the overlap and distinguishing features of primary headache disorders, sinus-related pain, and neuropathic facial painEvaluate evidence-based criteria for differentiating between rhinogenic and non-rhinogenic painDiscuss collaborative strategies with neurology, pain management, and otolaryngologists for comprehensive care	Ryan Vaughn, MD	Jeffrey Bedrosian, MD, FARS Karen Hoffman, MD Mark Mehle, MD Amelia Read, MD
12:15 pm - 1:15 pm Neurent Medical Lunch Symposium La Jolla AB, 2nd Level		
12:15 pm - 1:15 pm Lunch with Exhibitors in Grand Hall A		
1:15 pm - 2:00 pm Interactive Case Studies at the Intersection of Sleep Medicine and Rhinology <ul style="list-style-type: none">Identify common sleep disorders (e.g., obstructive sleep apnea, insomnia, and restless leg syndrome) that are influenced by or contribute to rhinologic conditionsAnalyze real-world case studies that explore the interplay between sleep medicine and rhinology, recognizing how nasal and sinus conditions can exacerbate sleep disorders and vice versaEvaluate diagnostic approaches for sleep-disordered breathing in patients with CRS, including the use of polysomnography, home sleep testing, and nasal airflow assessmentUtilize interactive, case-based learning to collaborate with peers in identifying effective management plans that integrate both rhinologic and sleep medicine perspectives, improving patient outcomes	Randall Ow, MD, FARS	Jolie Chang, MD Christopher Ito, MD, FARS Paul Schalch Lepe, MD Daniel O'Brien, MD
2:00 pm - 2:45 pm Optimizing Techniques and Outcomes in Skull Base Surgery: Key Insights <ul style="list-style-type: none">Learn step-by-step methods for accessing key regions of the skull base while minimizing tissue disruption and preserving functionUnderstand the principles of identifying and repairing CSF leaks during skull base surgeryWork through real-world scenarios of skull base pathologies and how to manage them effectively in a multi-disciplinary settingDemonstrate intraoperative tools, including navigation systems, angle endoscopes, and high-speed drills, to enhance precision and safety	Edward Kuan, MD, FARS Moderator	Elisa Illing, MD, FARS Dissector

ARS Summer Sinus Symposium

Industry Symposia, Product Theater, & Ancillary Sessions

Thursday, July 11, 2025

4:00 pm – 7:00 pm

Stryker ENT Cadaveric Lab

Location: Grand Hall D

Title: "Stryker ENT Cadaveric Lab"

Description: Experience hands-on physician training utilizing cadaveric specimen and head models, with the support of physician consultants. This local lab experience introduces Stryker technologies and products, with customized hands-on training featuring the entire Stryker ENT portfolio and surrounding Stryker technologies.

Speakers: Joshua Greene, MD; Amelia Read, MD; Ryan Vaughn, MD; Brian Weeks, MD

This is non-CME event sponsored by Stryker ENT. It is neither sponsored nor endorsed by the ARS.

5:00 pm – 7:00 pm

Faculty Reception

Bayview, 32nd Floor

By Invitation Only

Friday, July 11, 2025

7:00 am – 8:00 am

Sanofi Sanofi / Regeneron Breakfast Product Theater

Location: La Jolla AB

Title: Explore Sustained Control in CRSwNP

Description: To educate physicians on Dupixent and its FDA approved use in CRSwNP

Speaker: David Yen, MD

This is a non-CME event sponsored by Sanofi / Regeneron. It is neither sponsored nor endorsed by the ARS.

12:15 pm – 1:15 pm

GSK Lunch Product Theater

Location: Hillcrest ABCD, 3rd Floor, Seaport Tower

Title: "What's Driving Recurrent Disease in Your Patients? Targeting Eosinophils with a Biologic as an Option For Patients with Chronic Rhinosinusitis with Nasal Polyps"

Description: The program will review the clinical trial evidence for the use of a biologic, a non-surgical treatment option, in adult patients with CRSwNP. The presentation will incorporate a patient case and discuss the role of eosinophilic inflammation in recurrent nasal polyps.

Speakers: Robert Kern, MD, FARS and Jivianne Lee, MD, FARS

This is non-CME event sponsored by GSK. It is neither sponsored nor endorsed by the ARS.

Visit with ARS Exhibitors and be entered to win prizes!

Visit with our exhibitors and earn a chance to win an iPad, Apple Watch, or Apple Air Pods.

Each registered attendee (with the exception of spouses, guests, children under the age of 16, and exhibitors), will be given a raffle card for the Apple prizes. Drop by and visit each exhibitor and get your raffle card stamped. Once you have collected all the stamps, complete and sign the card and turn it in to the ARS staff at the Registration Desk. **All raffle tickets must be turned in by 2:00 pm on Saturday, July 12th. The drawing will take place at 3:00 pm in the Exhibit Hall (Grand Hall A).** Gift cards will be given out during the breaks and lunches. *You must be present to win. Good Luck!*

The ARS will retain control over the use of Educational Grants, and implement safeguards designed to ensure that educational programs are non-promotional and free from commercial influence and bias. All ancillary industry sponsored events are non-CME. They are neither sponsored by, nor endorsed by the ARS.
