

March 7-9, 2024

Thursday - Saturday | Seattle, WA

Dear Colleagues,

The 3-day, intensive [Seattle Otolaryngology & Rhinology \(SOAR\)](#) course will reinforce standard treatments and introduce attendees to leading-edge technologies, surgical techniques, and biomaterials. SOAR is designed for practicing otolaryngologists who focus on caring for patients with ear and sinus disorders. This course will deepen their knowledge and improve their technical abilities in paranasal sinus and otological surgery. Lengthy sessions in the anatomical laboratory will be supplemented by brief topical presentations related to the current dissections. Self-paced learning is emphasized. The goal of the SOAR course is to optimize the time each participant is taking away from their practice by building confidence to address more complicated pathology in the paranasal sinus and temporal bone.

We hope to see you there!

Greg Davis, M.D., Arif Janjua, M.D., and Douglas Backous, M.D.
Course Co-Chairs

Four Tracks

Four different tracks are offered to allow attendees to tailor their experience to their clinical needs: Full Course (Thurs-Sat); Otology Course (Thurs-Fri); Rhino & Oto Lectures Only (Fri); Rhinology Course (Fri-Sat). Attendees participating in the laboratory dissection will have their own specimen and dissection station with image guidance.

TRACK 1

Full Course
(Thurs-Sat, Mar 7-9)
\$1700

TRACK 2

Otology Only
(Thurs-Fri, Mar 7-8)
\$1200

Register Early as space is limited to 20 surgeons on each lab day.

TRACK 3

Rhinology Only
(Fri-Sat, Mar 8-9)
\$1200

TRACK 4

Friday Lectures
(Fri, Mar 8)
\$200
